21st AGM cum Seminar

The Smart Procurement & Supply Chain Initiative – “Faster, Cheaper and Better”

Saturday afternoon 14 April 2018

Dear Members and Friends,

Over the last decade, many organizations have sought to maximize the benefits gained from procurement. The best procurement officers consider different ways to incorporate innovation and dynamic flexibility into the procurement process. “Smart Procurement” seems as the key to unlocking greater savings in securing access to products and services, and allows procurement to play a vital role on transformation, competitive advantages and sustainability than just buying goods and services.

In this seminar, three renowned specialists will share their insights and latest technologies on the smart procurement, and supply chain development as well as challenges towards 2030.
