

Press Release

Industry & Technology Forum of Hong Kong R&D Centre for Logistics and Supply Chain Management Enabling Technologies

Hong Kong R&D Centre for Logistics and Supply Chain Management Enabling Technologies (LSCM R&D Centre), Hong Kong Productivity Council (HKPC) and DTTNCo are going to organize an Industry and Technology Forum to solicit industry requirements and foster research collaborations. It will be held on August 29, 2007 from 14:00–17:30 at the Function Room, Hong Kong Productivity Council Building, 78 Tat Chee Avenue, Kowloon Tong, Hong Kong.

The Forum will invite experts to give an update on latest enabling technologies for Logistics & Supply Chain Industry such as OBTIS – an Expandable Logistics IT Infrastructure for Truck Transportation; and DTTN – an open, neutral and secure community e-platform for the trade, logistics and finance industries to facilitate electronic information flow and enhance efficiency. The Forum will also provide an opportunity for technology experts, academics and industrialists to discuss issues and challenges in adopting mobile logistics and the current issues of our e-logistics internetworking.

Industry partners will participate in this Forum to showcase their products and solutions. They include Autotoll, IBM, DTTNCo, eBean Century, LCM Asia and Powersun Century. The LSCM R&D Centre will also introduce and promote its Industry Programs in the showcase area, don't forget to visit our booth.

Hongkong Association of Freight Forwarding and Logistics Limited, Hong Kong Logistics Association, Hong Kong Science and Technology Parks and Hong Kong Wireless Technology Industry Association are supporting organizations of the event.

About LSCM R&D Centre

Hong Kong R&D Centre for Logistics and Supply Chain Management Enabling Technologies (LSCM R&D Centre) was found in April 2006. It is established with funding support from the Innovation and Technology Commission of the HKSAR Government and is commissioned to provide a one-stop shop for technology transfer and commercialization. It is hosted by three leading universities in Hong Kong: The University of Hong Kong, The Chinese University of Hong Kong, and The Hong Kong University of Science and Technology. The aim of LSCM R&D Centre is to strengthen collaborative applied research activities between the industry and research organizations.
